

### **Amendments to the Specification**

On page 11, please replace compound 7 with the correct structure 7 shown on page 14, line 15, which includes an omitted oxygen atom between the five membered sugar ring and the -CH<sub>2</sub>-Ph group. The amendment corrects a typographic error and is consistent with reactant 8, and products 5 and 6, and replacement structure 7 on page 14, all having an -O-CH<sub>2</sub>-Ph group.
